A Personal Invitation to Explore the

Wedding Management System (WMS)

Hello!

I have something special I'd like to share with you.

I've been developing a wedding planning system called **Wedding Management System (WMS),** designed to help couples plan their weddings with less stress, greater confidence, and a little more joy.

I'd love for you to be among the first to explore it!

You can visit WMS from your iPhone, another smartphone, tablet, or computer. There's nothing to download or install.

When you arrive, you'll see four choices to help you explore the website at your own pace.

I'd really appreciate hearing what you think.

Warmest regards,

Jimmy Hart
